

Take workplace health and safety programs to the next level

Whether you are developing your OHS program, improving your existing program or developing your OHS management system, OSH Works™ provides the framework and knowledge base to document your efforts and help you to continually improve health and safety within your organization.

An ideal tool for:

Health and Safety Professionals

Human Resources Professionals

Health & Safety Committee Members

Managers and Supervisors

Employees

Take your organization's occupational health and safety performance to a higher level

Critical Issues—Occupational Health and Safety Management Systems:

- ▶ Integrate occupational health and safety responsibilities into your everyday business management
- ▶ Meet and exceed regulatory compliance requirements
- ▶ Manage and continually enhance your occupational health and safety program
- ▶ Promote a superior safety culture
- ▶ Keep your employees and workplace safe and healthy!

Exclusively from CCOHS, OSH Works™:

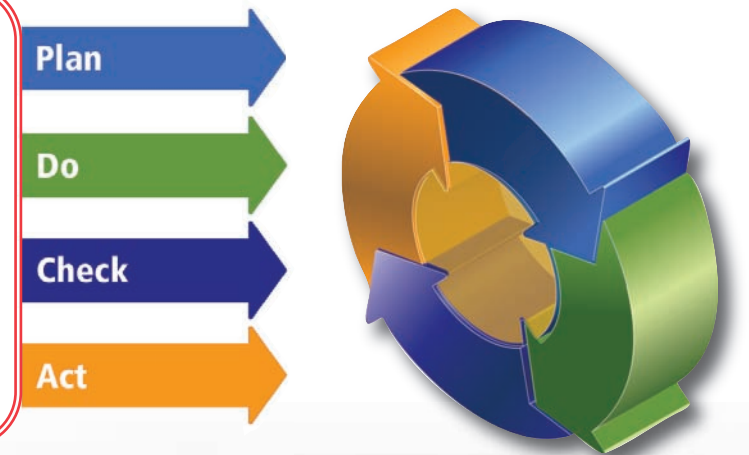

- ▶ is a web-based software tool and knowledge base designed to help organizations implement Occupational Health and Safety Management Systems (OHSMS) and OHS Programs based on management system principles.
- ▶ has functionality that is based on the Canadian OHSMS standard CSA Z1000, and is compatible with other OHSMS standards such as OHSAS 18001.
- ▶ provides a framework and guidance materials for developing your organization's OHS program, improving your existing program and performance, and/or implementing a complete OHSMS.

Have an OHS Program? Consider how OSH Works™:

Uses the Plan-Do-Check-Act cycle to promote continual improvement of your organization's OHS performance.

Provides the structure to allow your organization to develop and maintain a standards-compliant OHSMS (e.g. CSA Z1000, OHSAS 18001).

Assesses your organization's progress towards standards compliance using self-audit tools provided.

Enhance Your Existing Health and Safety Program through OSH Works™:

Engages all employees

Managers, supervisors and employees all understand their roles in the system. All workplace participants are involved in creation, evaluation and continuous improvement.

Everything OHS-related is accessible

Everyone in the organization has access to what they need – policies, procedures, legislation, tools, checklists, etc.

Demonstrates due diligence

Provides an overall framework to show what the employer is doing to provide a safe and healthy workplace.

Promotes continual OHS improvement

Set objectives and targets for ongoing OHS improvement.

Need an OHS Program?

Develop Your Health and Safety Program Using OSH Works™ from the start:

- ▶ Engage all employees – Managers, supervisors and employees all understand their roles and responsibilities.
- ▶ Guidance material and information resources help you develop your organization's OHS program.
- ▶ Everything OHS-related is accessible – everyone in the organization has access to what they need – policies, procedures, legislation, tools, checklists, etc.
- ▶ Demonstrate due diligence – OSH Works™ provides an overall framework to show what the employer is doing to provide a safe and healthy workplace.

CCOHS – a trusted source

The Canadian Centre for Occupational Health & Safety (CCOHS) is Canada's national resource for the advancement of workplace health and safety. CCOHS promotes the total well-being - physical, psychosocial and mental health - of working Canadians by providing information, training, education, management systems and solutions that support health and safety programs and the prevention of injury and illness.

CCOHS is governed by a Council with representatives from employers, labour and governments and is committed to providing impartial and accurate information services.
